

Laravel: Framework PHP Modern

Fundamental Laravel dan Struktur Project

Made with GAMMA

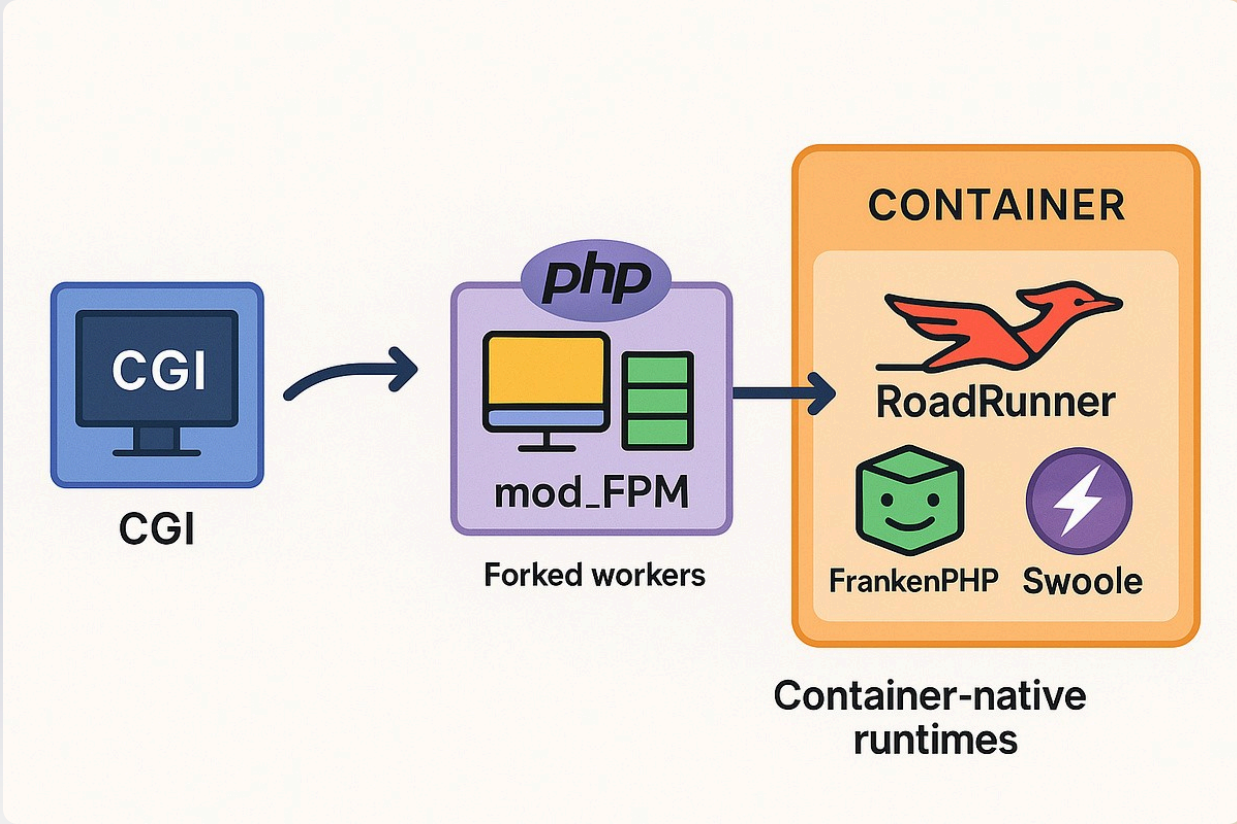

Dari PHP Native ke Framework

PHP Native

User → PHP File → Database

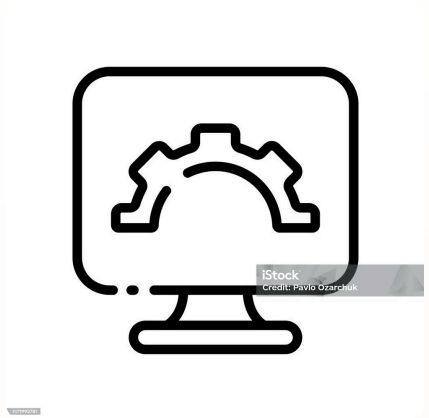

Laravel

User → Route → Controller → Model → View

Made with GAMMA

Mengapa Laravel?

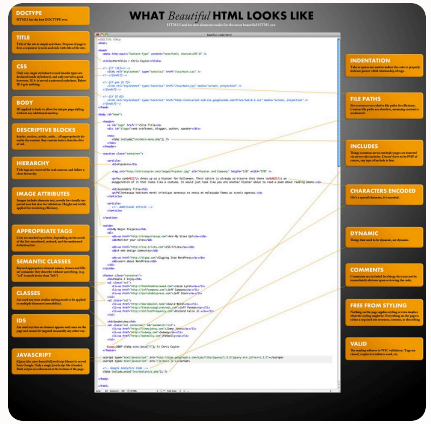

Convention over Configuration

Fokus pada fitur, bukan setup

Ekosistem Lengkap

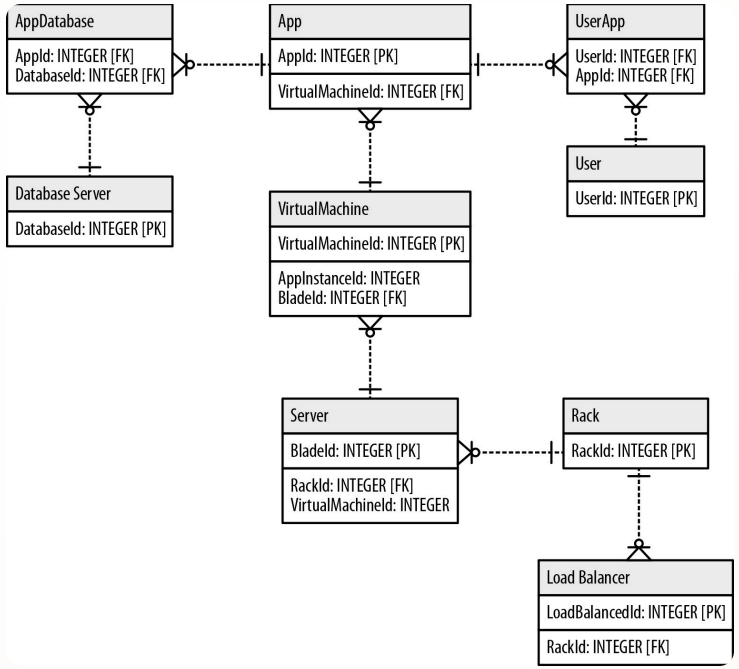

Tools powerful siap pakai

Blade Templating

Sintaks bersih dan ekspresif

Made with GAMMA

MVC

Model

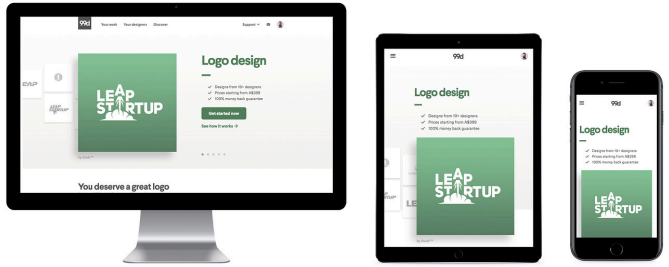

Bertanggung jawab atas **data & database**. Menangani relasi antar tabel dan query ke database.

Made with GAMMA

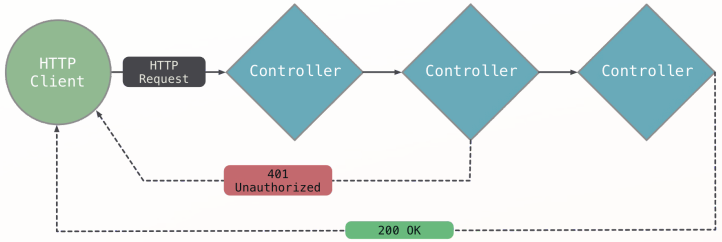

MVC

View

Menampilkan informasi kepada user menggunakan **Blade template engine** — sintaks elegan, logika minimal.

Made with GAMMA

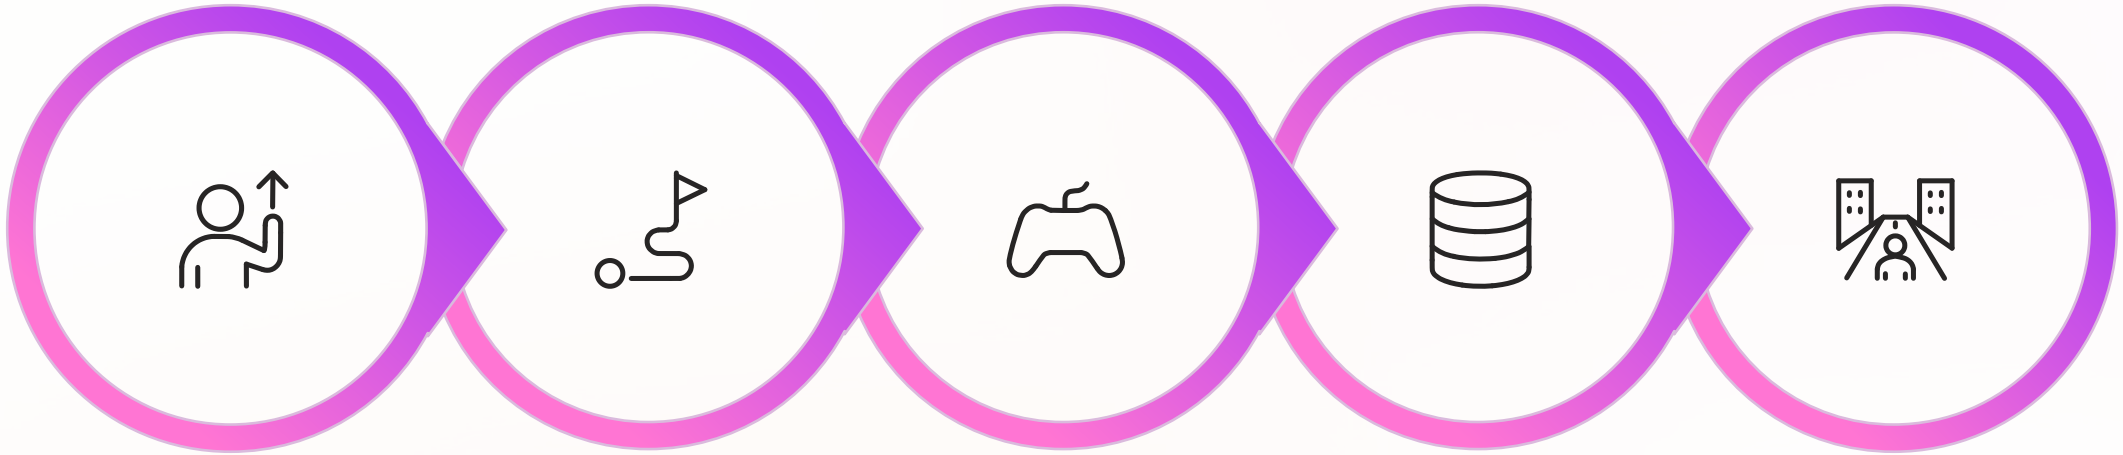

MVC

Controller

Menerima **request dari user**, memproses business logic, dan berkomunikasi dengan Model untuk mengambil atau menyimpan data.

Made with GAMMA

Alur Request di Laravel

Permintaan **Routing** **Controller** **Model** **View**

Made with GAMMA

Struktur Folder Laravel

app/

Controllers & Models

routes/

web.php routing

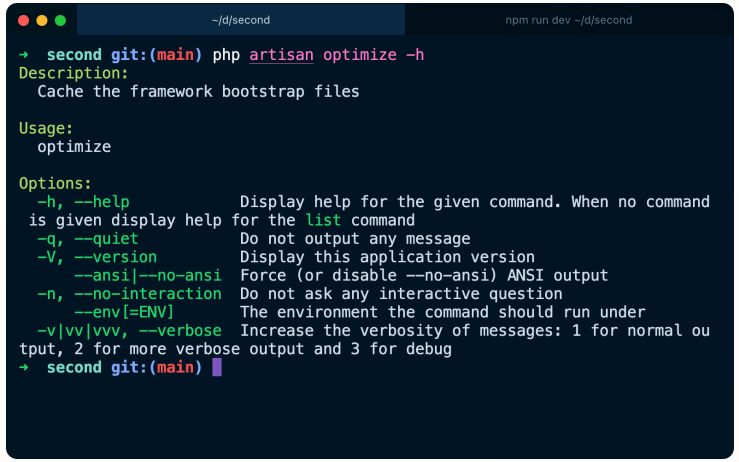

resources/views/

Blade templates

database/

Migrations

Made with GAMMA

Artisan: CLI Laravel

php artisan serve

Jalankan server development lokal

php artisan make:controller

Buat file Controller baru

php artisan make:model

Buat file Model baru
